### **Stainless Steel Welded/ERW Pipes ([www.stainlesssb.com](http://www.stainlesssb.com))**

Stainless Steel ERW Pipe is an Electric Resistance Welded Pipe. ERW steel pipes & tubes are used in many industrial applications. ASTM A213 304 ERW Pipes & tubes are used in various engineering purposes, scaffolding, fencing, line pipes, etc. ERW steel pipes are available in various qualities, wall thicknesses, and diameters of the finished pipes. SS 304 Electric Resistance Welded Pipes find its usage for Agricultural purposes, Drinking Water for housings, in collieries for extraction of Water, Transports, Thermal Powers, Hand pumps for deep boring wells, as strong protection for cables by Telecom Department, Structural Purposes and so on.

### **Stainless Steel ERW / Welded Pipes and Tubes**

We offer a huge array of steel pipes that are fabricated by using various grades of material steel and metal alloys. These are available in single welded or double welded form. Our clients have the option to choose pipes with radiography or without radiography.

Stainless steel ERW Pipes and ERW pipes are fabricated in different alloys of ASTM / ASME SA 312 GR. TP 304, 304L, 304H, 309S, 309H, 310S, 310H, 316, 316L, 316H, 316Ti, 317, 317L, 321, 321H, 347, 347 H, 904L ASTM / ASME SA 358 CL 1 & CL 3 GR. 304, 304L, 304H, 309S ,309H, 310S, 316, 316H, 321, 321H, 347 and others. Our comprehensive range includes welded stainless steel pipes, ERW alloy steel pipes, welded steel pipes and many more. We produce using ace quality of steel and alloy to retain their durability for longer period.

## **STAINLESS STEEL SHEET** ([www.stainlesssb.com](http://www.stainlesssb.com))

Stainless steel sheet is available in Type 304 and Type 316. Type 304 can be easily roll-formed or bent, and its excellent corrosion resistance and weld ability make it one of the most popular grades. Type 316 is a high corrosion resistance alloy, providing greater resistance to pitting-type corrosion. Typical uses for Type 316 include marine, chemical, paper, textile, and food service applications, such as a stainless steel backsplash. Our stainless steel sheet is dual certified 316/316L, which helps prevent corrosion after welding.

## **STAINLESS STEEL PLATE** ([www.stainlesssb.com](http://www.stainlesssb.com))

SHRI BEHARIJI STAINLESS PVT LTD stocks a wide range of stainless steel plates in 304/304L, 304 straight grade, 316/316L and 321 plate. These grades are part of the austenitic family of stainless. Austenitic stainless steel is one of the most widely used and versatile type of steel. While 304L stainless steel plates & sheets have excellent corrosion resistance, 316/316L plates have higher nickel content than 304 and 304L SS sheets giving them even better corrosion resistance especially in marine applications. Type 321 SS plates are a good choice for applications where heat is an issue.

## **STAINLESS STEEL COIL** ([www.stainlesssb.com](http://www.stainlesssb.com))

SHRI BEHARIJI STAINLESS PVT LTD Distributors & Exporters of Stainless Steel Coil In grade 304, 316, 202, 321, 310, 400 Series in All Finishes, BA 2B Finished and Galvanized cold rolled SS Coil Suppliers. Compare price of SS Coil.

We offer stainless steel wires rolled up in desired form as required by the client. The coil is a widely used product in the steel industry and it describes a roll of steel which is somewhat ambiguous. The ASTM A240 SS Coil was traditionally produced by putting the slabs through a conversion process with the help of a Z mill. These are the wide coils which are made at around 1250mm, and they are known as the mill edge coil.

## **STAINLESS STEEL FLANGES** ([www.stainlessb.com](http://www.stainlessb.com))

SHRI BEHARIJI STAINLESS is the leading Suppliers & Exporter of these Stainless Steel Flanges in all over Indian market. The Stainless Steel Flange is a forged or cast ring that connects two sections of pipe or any other machinery that requires a connecting point in the middle. Because of their tensile strength and surface finish, these Stainless Steel Industrial Flanges are in high demand in the industry.

[www.stainless.com](http://www.stainless.com) is a well-known supplier, and exporter of Stainless Steel Flanges of various types such as Slip-on Flanges, Blind Flanges, Weld Neck Flanges, Socket Weld Flanges, Ring Joint Flanges, Long Weld Neck Flanges, Threaded Flanges, Raised Face Flanges, Lap Joint Flanges, and Orifice Flanges in various standards such as ANSI, ASME, BS, DIN, API etc. We provide Stainless Steel Flanges that can withstand harsh and corrosive conditions.
